

Harry A. Mark, AIA, SEGD
Principal

Harry Mark, RSM Design principal, brings the best of both worlds to the Studio: an impressive background with some of the world's leading architectural firms and a hands-on knowledge of international architecture and graphic design. His well-rounded experience has seasoned him to creatively co-direct and manage the RSM Design team, cohesively melding the graphics and architecture. Harry is involved in the development of all projects from conceptualization through fabrication.

Prior to joining RSM, Harry worked for RTKL Associates as an associate project designer and for HOK Architects as a senior design associate. He also had his own architectural and graphic design studio before joining Redmond Schwartz Design.

As the recipient of numerous design awards, Harry's work and articles have been published in several national magazines and trade journals and featured in exhibits throughout the United States. He earned his Bachelor of Architecture from the University of Texas and a Master of Architecture from the Graduate School of Fine Arts at the University of Pennsylvania. Harry has been a registered architect for over 20 years, and an active member of the American Institute of Architects, Texas Society of Architects, and the Society of Environmental Graphic Designers. Harry dedicates his summers as a senior architect in remote Turkey, directing a team of graduate students in drawing and reconstructing the ancient archaeological excavation of Aphrodisias.

"One can't truly experience architectural design through books alone, but must experience it first hand to understand its power." --Harry A Mark
